

# Summer Math Practice

All students who were in grades 2 - 5 used various math programs in school and at home throughout the school year. Typically sessions on any of these programs should last between 20 and 30 minutes. Just like in reading, we want students to maintain the growth they've made in math throughout the year. We feel that if they regularly use one of the programs listed below they will come back to school in the fall solid with the concepts and skills they learned throughout this past school year .

**If your family does not have computer access computers are available at public libraries.**

Below are a list of various programs your child may have used throughout the 2016/2017 school year. At the end of the school year they received a similar sheet that also included their Username and Password information.

***Students who complete this assignment will receive some special treats in September!***

Program Name	Website
Reflex Math	<a href="https://www.reflexmath.com/">https://www.reflexmath.com/</a>
Zearn	<a href="https://www.zearn.org/">https://www.zearn.org/</a>
Study Island	<a href="https://app.studyisland.com/cfw/login/">https://app.studyisland.com/cfw/login/</a>
Khan Academy	<a href="https://www.khanacademy.org/">https://www.khanacademy.org/</a>
Multiplication	<a href="http://www.multiplication.com/">http://www.multiplication.com/</a>
Prodigy	<a href="https://www.prodigygame.com/play/">https://www.prodigygame.com/play/</a>
