

Callahan Math & Writing Parent Information Night

We hope that you'll join us on

Monday, February 11th from 5:30 - 6:45

Do you wonder why there are “new math strategies” being taught when the “old ones” seemed to work just fine years ago? Do your children talk about having to explain their math thinking when solving problems? Are you wondering how to help your child with their math homework?

“Empowering” writers is a program that teaches students to develop a good eye for good writing. Authors know their purpose for writing. Is it to inform, entertain or convince? A writer knows their audience and tailors their writing for the intended purpose. Come see how your child is “empowered” in writing!

Each session will be facilitated by our very own Callahan teachers!

While parents attend workshop sessions, school age children will participate in fun-filled activities!

Please let us know you're coming so that we can plan!

Kindly fill out the form below and **return** it to school by **Friday, February 1st!**

.....
_____ Yes! We'll be at the Callahan Math and Writing Information Night on February 11th!

Number of adults attending: _____ Number of children attending: _____
