

W.L. Callahan School Showcase of Student Learning

We hope that you'll join us on

Thursday, May 3rd from 5:00—6:30

Families are invited to come and see various things students are learning at W.L.C. Each presentation will be facilitated by our very own Callahan students and teachers!

Please see the reverse side of this for more information.

Please let us know you're coming so that we can plan!

Kindly fill out the form below and **return** it to school by **Friday, April 27th!**

_____ Yes! We'll be at the W.L. Callahan Showcase of Student Learning
on Thursday, May 3rd!

Number of adults attending: _____ Number of children attending:

Parent Signature _____

- Visit a Wax Museum depicting mill life.
- See what students in different grades are learning about science.
- You will be in awe of the amazing work involved in these special projects that students have seen to fruition.
- Come learn about wild animals.. Just remember to shut the door behind you so they don't escape.
 - Young engineers discover how solids can be used to build!
- See how students use technology to demonstrate their understanding, and present what they've learned.
- Do you know more than a fifth grader when it comes to the Boston Tea Party?
 - Do you have a hard time getting your child to read? What is SO IMPORTANT about reading anyway? Do you wonder if reading will ever get easier for your child? Does your child receive reading help and you wonder if they will EVER get out? - Come to a short talk on WHY WE READ.

Student Showcase

Welcome to William L. Callahan's Learning Showcase

Thank you for coming tonight to William L. Callahan's Showcase of Student Learning. You are welcome to walk around to the locations listed and talk to teachers and students about the teaching and learning taking place in our classrooms. There are light snacks and beverages in the lobby for your enjoyment. Students who are participating with their teachers should report directly to those locations. Before leaving if you would complete the brief survey we would appreciate it. We will use your feedback to help plan for future Learning Nights.

Location	Description
Gym	Visit a Wax Museum depicting mill life.
	Do you wonder why the school is always asking your child to read at night? Come to a short talk on WHY WE READ with Mrs. Curtis, Reading Specialist at WLC.
Room 101	Young scientists observing, investigating, and sharing.
Room 105	You will be in awe of the amazing work that students have put forth in seeing these special projects come to fruition.
Rooms 106	"Argh, matey! What's that map I see?"
Room 107	Come visit our wild animals in room 107 at the learning showcase. Just remember to shut the door behind you so they don't escape.
5th grade	It's a tea party in room ----- and you're invited!
Hallways	A sampling of artwork as well as some musical acts!
